Topic 1: Hazelnut Praline

Hazelnut Praline by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Caster Sugar	235g		Trust/ Mawana
Water	45ml		
Hazelnuts	190g		
Butter	45g	Unsalted, Cold	Amul
Salt	1 tsp		
Oil	80ml		Any Flavorless Oil

Procedure

1. **Cook Sugar and Water:** In a heavy-bottomed saucepan, pour water and sprinkle sugar. Allow sugar to melt on low heat, once sugar is melted increase heat to maximum, Cook just until the color begins to change.
2. **Add Hazelnuts:** Quickly add hazelnuts to the melted sugar. Stir the nuts, to evenly coat them with the melted sugar. Continue Stirring until sugar starts to crystalize, turn off heat.
3. **Transfer to Silicone Mat:** Pour the crystalised sugar coated nuts onto a silicone mat.
4. **Grind into Powder:** While still hot, add the nuts to a mixer jar crush them to powder.
5. **Make Praline Paste:** Add butter and salt into the mixer jar and blend to coarse mixture. Add oil to achieve a fine paste. Grind the mixture until it reaches a fine and smooth consistency. Chill in a refrigerator for 3 hours before using it on cakes and mousses.

Tips for Success:

1. **Heavy-Bottomed Saucepan:** Use a heavy-bottomed saucepan to prevent burning of the sugar syrup.
2. **Texture of Praline Paste:** Praline paste when made using home grinders can be slightly grainy. However, if you prefer a smoother texture, grind it longer. Grind the nuts while hot to release natural oils of the nuts.
3. **Optional Oil Addition:** Increasing oil slightly can help achieve a smoother paste, especially if your mixer or food processor isn't powerful enough.

Topic 2: Gianduja (Nutella)

Gianduja by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Cream	110g		Amul Fresh
Milk Powder	1 tbsp		
Milk Chocolate	85g	Chopped	Vanhouten
Dark Chocolate	85g	Chopped	Vanhouten
Hazlenut Praline	170g	Room Temperature	

Procedure

1. **Hazelnut Praline Paste:** Follow the instructions in Topic 1, to make a hazelnut praline paste.
2. **Prepare Cream Mixture:** In a saucepan, combine the milk powder, praline paste and cream. Warm the mixture over low heat while whisking constantly until smooth. Do not boil the cream.
3. **Emulsify Chocolate:** Place the chopped chocolate in a bowl. Pour warm cream over the chocolate and whisk until the chocolate is completely melted and the mixture is smooth and lump-free, creating a silky smooth Gianduja filling. Use at room temperature.

Tips for Success:

1. **Grind Hazelnut Paste:** For a very fine texture, grind the Warm Gianduja in a mixer until it forms a perfectly smooth paste. If hazelnut paste is not fine, final gianduja will be grainy.
2. **Careful Heating:** Avoid boiling the cream, keep it at a temperature not more than 50c to preserve texture and flavor.

Topic 3: Mango Toffee

Mango Toffee by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Caster Sugar	130g		Trust/ Mawana
Water	40ml		
Liquid Glucose	35g		
Cream	120g	Warm	Amul Fresh
Butter	60g	Unsalted, Cold	Amul
Salt	A Pinch		
Mango Confit	100g		
Mango Essence	2 Drops		Any Brand
Vanilla Essence	2 Drops		Ossoro

Procedure

- Cook Sugar Mixture:** In a heavy-bottomed saucepan, add water, liquid glucose and sugar. Cook over medium heat without stirring until the mixture reaches a light amber color. Be careful not to let it brown.
- Incorporate Cream:** Add warm cream, whisking continuously until the mixture is smooth and well combined. The mixture will bubble up vigorously, so proceed with caution.
- Add Butter and Salt:** Gradually add cold butter and salt, whisking until the butter is fully emulsified until it is smooth.
- Add Mango Confit:** Stir in the mango confit, then blend the mixture to achieve a smooth texture.
- Cool and Set:** Transfer the mango toffee filling to a bowl. Cover the surface directly with cling wrap. Allow it to cool completely at room temperature and Chill in refrigerator for 2 hours before use.

Tips for Success:

- Use a Heavy-Bottomed Saucepan:** This helps prevent the sugar from turning brown and ensures even cooking. If sugar turns brown it will not be possible to achieve fruit colour in the toffee.
- Gradual Addition of Cream:** Add the warm cream slowly to avoid vigorous bubbling and splattering.
- Smooth Emulsification:** Ensure butter and caramel are well emulsified for a silky texture.
- Choose Quality Mangoes:** Use sweet and flavorful mangoes to enhance the taste of the mango confit.
- Blend Thoroughly:** Blend the mango confit into a smooth paste to achieve a uniform and smooth toffee consistency.

Topic 4: Salted Caramel

Salted Caramel by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Caster Sugar	175g		Trust/ Mawana
Water	50ml		
Liquid Glucose	20g		
Cream	180g	Warm	Amul Fresh
Butter	70g	Unsalted, Cold	Amul
Salt	1 tsp		
Vanilla Essence	Few Drops		Ossoro

Procedure

1. **Cook Sugar and Water:** In a heavy-bottomed saucepan, combine the sugar, liquid glucose and water. Cook over medium heat without stirring until the mixture turns to a medium amber color. Be careful not to burn it.
2. **Incorporate Cream:** Add the warmed cream, whisking continuously until the mixture is smooth and well emulsified. Be cautious as the mixture will bubble up vigorously.
3. **Add Butter and Salt:** Add the butter and salt to the caramel mixture, whisking until fully incorporated and the sauce becomes smooth.
4. **Add Vanilla Essence:** Stir in the vanilla essence until well combined.
5. **Cool and Set:** Transfer the caramel sauce to a bowl. Cover the surface directly with cling wrap to prevent skin formation. Allow it to cool to room temperature and Chill in refrigerator for 2 hours before use.

Tips for Success:

1. **Use a Heavy-Bottomed Saucepan:** This helps prevent the sugar from burning and ensures even cooking.
2. **Gradual Cream Addition:** Add the warm cream slowly to avoid vigorous bubbling and splattering.
3. **Color Control:** The darker the caramel, the less sweet and more bitter it becomes. Adjust the cooking time to achieve your preferred flavor profile.

Topic 5: Strawberry Compote

Strawberry Compote by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Strawberries	375g	Fresh/ Frozen	
Caster Sugar	145g		Trust/ Mawana
Salt	1 tsp		
Corn Starch	2 tbsps		Any Brand
Water	2 tbsps		

Procedure

1. **Cook Strawberries:** In a heavy-bottomed saucepan, combine the strawberries, sugar and salt. Allow sugar to melt over a low heat and then bring the mixture to a boil over medium heat, stirring occasionally.
2. **Prepare Corn Starch Slurry:** In a small bowl, mix the water and corn starch until smooth and free of lumps and keep aside.
3. **Thicken the Compote:** Reduce the heat to low. Slowly whisk the corn starch slurry into the saucepan. Continue cooking, stirring constantly, until the compote thickens and coats the back of a spoon but still pour easily.
4. **Cool and Set:** Remove the saucepan from the heat. Transfer the compote to a bowl and allow it to cool to room temperature and chill for 2 hours before use.

Tips for Success:

1. **Use a Heavy-Bottomed Saucepan:** This helps prevent the compote from burning during cooking.
2. **Continuous Stirring:** Stir continuously while adding the corn starch mixture to ensure a smooth texture and to prevent lumps.
3. **Note Thickening:** The compote will further thicken as it cools, so take this into account when cooking to your desired consistency.

Topic 6: Dulce De Leche

Dulce De Leche by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Condensed Milk	400g		Amul

Procedure

1. **Prepare Pressure Cooker:** Place the unopened can of sweetened condensed milk in a pressure cooker. And fill the pressure cooker with 2 inch water.
2. **Pressure Cook:** Secure the lid of the pressure cooker and cook on medium heat for 12-13 pressure whistles. This typically takes about 40 minutes.
3. **Cool Down:** Once the cooking time is complete, allow the pressure to release naturally. Let the can cool to room temperature before handling. Can be used at room temperature.

Tips for Success:

1. **Safety First:** Ensure the pressure cooker and the can is opened only after it is completely cooled down to room temperature atleast for 4 hours to prevent any risk of the can exploding. If necessary, add more water during cooking.
2. **Patience in Cooling:** Do not attempt to open the can while it is still hot. Allow it to cool completely to avoid burns or the dulce de leche spilling out under pressure.

Topic 7: Caramelized White Chocolate

Caramelized White Chocolate DDL by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Cream	80g	Warm	Amul Fresh
Dulce De Leche	380g	Smooth and Warm	
Cocoa Butter	80g	Melted	Morde
Vanilla Essence	Few Drops		Ossoro

Procedure

1. **Combine Dulce de Leche and Cream:** In a saucepan, combine the dulce de leche and cream. Cook over low heat, stirring constantly, until the mixture is fully homogenized and smooth.
2. **Incorporate Cocoa Butter:** Remove the saucepan from heat. Gradually add the melted cocoa butter in batches, whisking well after each addition until the mixture achieves a silky smooth texture.
3. **Add Vanilla Essence:** Once the cocoa butter is fully incorporated, stir in the vanilla essence until well combined.
4. **Cool and Set:** Transfer it to a bowl, cover the surface directly with cling wrap to prevent skin formation. Allow it to cool to room temperature before use.

Tips for Success:

1. **Constant Stirring:** Stir continuously while heating the dulce de leche and cream to ensure a smooth and homogeneous mixture.
2. **Gradual Cocoa Butter Addition:** Add the cocoa butter in small batches to ensure it emulsifies evenly and creates a silky texture.
3. **Prevent Skin Formation:** Cover it directly with cling wrap to prevent a skin formation as it cools.

Topic 8: Apricot Marmalade

Apricot Marmalade by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Dried Apricot	330g	Chopped	
Water 1	240ml		
Caster Sugar	250g		Trust/ Mawana
Water 2	100ml		
Corn Starch	3 tsp		Any Brand
Mango Essence	2 Drops		

Procedure

1. **Soak and Blend Apricots:** In a jar, soak the chopped dried apricots in water 1 for 6 hours. After soaking, blend the apricots in a mixer grinder to a coarse puree.
2. **Cook Apricots:** In a saucepan, combine apricot puree and the sugar. Cook over medium heat until the apricots soften and the mixture starts to thicken.
3. **Prepare Corn Starch Mixture:** In a small bowl, mix water 2 and corn starch until smooth and free of lumps.
4. **Thicken Apricot Mixture:** Reduce the heat to low and gradually add the corn starch slurry to the Saucepan and stir constantly. Cook until the mixture reaches a thick consistency.
5. **Add Mango Essence:** Remove the saucepan from heat and stir in the mango essence.
6. **Cool and Set:** Transfer the marmalade to a bowl. Allow it to cool to room temperature.

Tips for Success:

1. **Smooth Corn Starch Slurry:** Ensure the corn starch slurry is lump-free before adding it to the apricot mixture.
2. **Constant Stirring:** Stir continuously while cooking to avoid lumps and ensure a smooth texture.

Topic 9: Blueberry Confit

Blueberry Confit by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Blueberries	375g	Puree	
Caster Sugar	145g		Trust/ Mawana
Salt	1 tsp		
Corn Starch	2 tbsp		Any Brand
Water	3 tbsp		

Procedure

1. **Cook Blueberries:** In a saucepan, combine blueberry puree and sugar. Bring to a boil over medium heat, stirring occasionally.
2. **Prepare Corn Starch Slurry:** In a small bowl, mix the remaining water and corn starch until smooth and free of lumps.
3. **Thicken Berry Mixture:** Reduce the heat to low and gradually add the corn starch slurry to the blueberry mixture while stirring constantly. Add the remaining sugar. Continue to stir until the mixture thickens and the sugar dissolves. Remove the saucepan from the heat. Allow the confit to cool to room temperature.
4. **Cool and Set:** Transfer the thickened confit to a bowl. Cover the surface with cling wrap. Allow it to cool at room temperature.

Tips for Success:

1. **Smooth Corn Starch Slurry:** Ensure the corn starch slurry is lump-free before adding it to the blueberry mixture.
2. **Constant Stirring:** Stir continuously while cooking to avoid lumps and to ensure a smooth texture.

Topic 10: Creme Anglaise

Creme Anglaise by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Corn Starch	10g		Any Brand
Custard Powder	15g		Any Brand
Milk	245ml		Any Toned Milk
Cream	130g		Amul Fresh
Sugar	70g		
Salt	3/4 tsp		
Vanilla Essence	Few Drops		Ossoro
Butter	40g	Unsalted, Cold	Amul

Procedure

1. **Prepare Corn Starch Slurry:** In a bowl, add corn starch, custard powder, sugar to milk & cream, mix until smooth and lump free.
2. **Heat Anglaise Mixture:** Pour the above mixture into a heavy bottomed saucepan. Cook over medium heat until it begins to steam, stirring occasionally.
3. **Thicken the Anglaise:** Cook until the mixture starts to thicken and coats the back of the spoon.
4. **Add Final Ingredients:** Remove the saucepan from heat. Add salt, butter, and vanilla. Whisk until the butter is fully melted and the mixture is smooth and well emulsified.
5. **Cool and Set:** Transfer the mixture to a bowl. Cover the surface directly with cling wrap. Let it cool at room temperature, then chill in the refrigerator until ready to use.

Tips for Success:

1. **Smooth Slurry:** Ensure the corn starch slurry is lump-free before adding it to the saucepan.
2. **Constant Stirring:** Stir continuously while cooking to avoid lumps and ensure a smooth texture. Do not overcook to prevent it from becoming thick like vanilla custard.
3. **Prevent Skin Formation:** Cover the Anglaise directly with cling wrap to prevent a skin formation as it cools.

Topic 11: Vanilla Cheesecake Filling

Vanilla Cheesecake Filling by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Cream Cheese	215g	Cold	D'lecta
Condensed Milk	35g	Cold	Amul
Salt	A Pinch		
Whipping Cream	160g	Non Dairy	Rich's Star Whip

Procedure

1. **Blend Cream Cheese Mixture:** In a mixing bowl, combine the cream cheese, salt, and condensed milk. Blend until smooth and lump-free.
2. **Fold in Whipped Cream:** Gently fold the whipped cream into the cream cheese mixture until well incorporated. Cover & Chill in refrigerator for 2 hours before use.

Tips for Success:

1. **Avoid Overmixing:** Do not overmix the mixture, as this can result in a soupy filling.
2. **Optimal Creaming:** Ensure the cream cheese is fresh & cold for optimal creaming, which helps achieve a smooth texture.

Topic 12: Dark Chocolate Namelaka

Dark Chocolate Namelaka by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Milk	90ml		Any Toned Milk
Cream 1	140g		Amul Fresh
Corn Starch	9g		Any Brand
Dark Chocolate	185g	>46%, Finely Chopped	Vanhouten
Butter	12g	Unsalted, Cold	Amul
Cream 2	35g	Cold	Amul Fresh

Procedure

1. **Prepare Corn Starch Slurry:** In a bowl, mix the milk with the corn starch until smooth and free of lumps.
2. **Heat the Slurry:** Pour the slurry into a saucepan and stir constantly over medium heat until it slightly thickens.
3. **Add Chocolate and Butter:** Remove the saucepan from the heat. Add the chocolate and butter, whisking until well emulsified.
4. **Incorporate Cream:** Pour the cream into the chocolate mixture, continuing to whisk until everything is well emulsified.
5. **Cool and Set:** Transfer the mixture to a bowl, cover the surface with cling wrap and let it cool. Place it in the refrigerator for 3 hours before use.

Tips for Success:

1. Ensure the Corn starch slurry is lump-free before adding it to the saucepan.
2. Stir continuously while cooking to avoid lumps and ensure a smooth texture.
3. Cover the Namelaka directly with cling wrap, to prevent a skin from forming.

Topic 13: Vanilla Custard

Vanilla Custard by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Custard powder	15g		Any Brand
Corn Starch	10g		Any Brand
Milk	185ml		Any Toned Milk
Cream	130g	Room Temperature	Amul Fresh
Sugar	70g	Powdered	Tust/ Mawana
Salt	1/2 tsp		
Vanilla Essence	Few Drops		Ossoro
Butter	40g	Unsalted, Cold	Amul

Procedure

1. **Prepare Corn Starch Slurry:** In a bowl, mix corn starch, custard powder, sugar to milk & cream until smooth and free of lumps.
2. **Heat Corn Starch Slurry:** In a heavy bottomed sauce pan, add the slurry and stir constantly over medium heat until it slightly thickens. Cook until the mixture coats the back of a spatula.
3. **Finish Custard:** Remove the saucepan from heat. Add salt, butter, and vanilla essence, whisking until fully emulsified and smooth.
4. **Cool and Chill:** Transfer the custard to a bowl, cover the surface with cling wrap and let it cool to room temperature. Then, chill in the refrigerator for 6 hours until ready to use.

Tips for Success:

1. Ensure the corn starch slurry is lump-free before adding it to the saucepan.
2. Stir continuously while cooking to avoid lumps and ensure a smooth custard.
3. Cover the custard directly with cling wrap to prevent a skin formation.

Topic 14: Hazelnut Mousse

Hazelnut Mousse by Jeyadra Vijayselvan			
Ingredients	Measurements	Notes	Brand Suggestions
Final Yield	400g (Approx)		
Hazelnut Praline Paste	150g	Room Temperature	
Whipped Cream	250g	Non Dairy, Cold	Rich's Star Whip

Procedure

1. Gently fold the hazelnut praline paste into the whipped cream until well combined, creating a light and airy mousse.
2. **Do not overmix:** Overmixing can deflate the whipped cream, resulting in a soupy mousse. Fold gently to maintain a light and airy texture.

J EY A D R A

Topic 15: Variations

Variations			
Sno	Base Name	Filling Name	Instructions
1	Vanilla Custard	Crème Diplomat	Take 130g chilled Vanilla Custard, whip it with a whisk to form lump free Custard. Into this fold in 270g Non-Dairy Whipped Cream
2		Lemon Curd	Follow Vanilla Custard Method, add zest of 1.5 Lemon to Fresh Cream and 35ml Lemon Juice while Custard is warm
3	Vanilla Cheesecake Filling	Cheese Chantilly	Follow Vanilla Cheese Cake Filling Procedure. Replace Cream Cheese with Mascapone cheese
4		Chocolate Cheesecake Filling	Follow Vanilla Cheese Cake Filling Procedure. Add 12g Cocoa powder to Cream Cheese and fold in with 250g Non-Dairy Whipped Cream
5	Strawberry Compote	Berry Mousse	Follow Strawberry Compote procedure. Replace Strawberry with Berry of your choice. Take 160g Berry Compote and fold in 240g Non-Dairy Whipped Cream
6	Caramelized White Chocolate	Caramelized White Chocolate Mousse	Take Caramelized white Chocolate and fold in Non-Dairy Whipped Cream
7	Gianduja	Gianduja Mousse	Take Gianduja and fold in Non-Dairy Whipped Cream
8	Hazelnut Praline	Pistachio Mousse	Take 190g Pistachio Praline Paste and fold in 210g Non-Dairy Whipped Cream
9		Almond Praline	Follow Hazelnut Praline Method, Replace Hazelnuts with Almonds. Take 190g Almond Praline Paste and fold in 210g Non-Dairy Whipped Cream
10	Dark Chocolate Namelaka	White Chocolate Namelaka	Follow Dark Chocolate Namelaka and substitute White Chocolate for Dark Chocolate
11		Milk Chocolate Namelaka	Follow Dark Chocolate Namelaka and substitute Milk Chocolate for Dark Chocolate
12	Mango Toffee	Raspberry Toffee	Follow Mango Toffee Method, Replace Mango Confit with 100g Raspberry Confit
13	Blueberry Confit	Strawberry Confit	Follow Blueberry Confit Method, Replace Blueberry with Strawberry
14	Classic Caramel	Chocolate Caramel	Follow Classic Caramel method, Take 360g warm Caramel add 40g melted Dark Chocolate
